## **Spring into Sustainability with LCSWMA**

Spring is a time for renewal, so this year, help renew your community and environment with these tips from the Lancaster County Solid Waste Management Authority (LCSWMA).

- **Figure out what items belong in your recycling bin.** While each municipality in Lancaster County handles recycling differently, the following materials are accepted by *all* garbage haulers: glass bottles and jars (any color), steel and tin cans, plastic bottles such as water, soda or juice bottles, detergent containers and milk jugs and paper, including newspaper and inserts, phone books, junk mail and magazines. If you have specific questions about what can be placed in your recycle bin, contact your municipality or garbage hauler directly.
- **Organize a cleanup or beautification event in your community** as part of the Great American Cleanup of PA (GAC), happening March 1 through May 31. During the GAC, residents from across the state gather together to clean up litter and trash along roadsides, streams, beaches, parks, forests and neighborhoods. In addition to litter pickups, groups can also hold recycling drives or plant trees and flowers. Register a cleanup event at [www.gacofpa.org](http://www.gacofpa.org) in order to receive supplies and equipment, free of charge. Contact Allison Vollmer, who coordinates the Keep Lancaster County Beautiful program (an initiative of LCSWMA), at 717-397-9968 prior to a cleanup event for information on free disposal of litter at any one of LCSWMA's facilities.
- **Take advantage of free disposal programs.** LCSWMA accepts household hazardous waste (HHW), such as paint, electronics, fluorescent lightbulbs and more, from Lancaster County residents for FREE at its HHW Facility located at 1299 Harrisburg Pike, Lancaster. This permanent drive-through facility is open 6 days per week: Monday-Friday from 7 AM – 4 PM and Saturday from 8 AM – 12 PM. Call 717-397-9968 or visit [www.lcswma.org](http://www.lcswma.org) for more information. By utilizing the HHW Facility, you are helping to keep household hazardous materials out of the waste stream, thus helping to build a more sustainable future for our community.
- **Commit to composting.** Composting is an excellent way to recycle vegetable scraps, grass clippings, leaves and other organics, turning those materials into a useful and valuable product to naturally improve the soil. Not sure where to begin? LCSWMA is offering FREE Home Compost Workshops on the following dates: April 19 at the City of Lancaster's Recycling Drop-Off Center at 6 PM, May 20 at the East Donegal Township Municipal Building at 10 AM and June 7 at the Manheim Farm Show building at 6 PM. Call 717-397-9968 for more information or to sign up for one of the workshops.

#### **Local Economic Revitalization Tax Assistance (LERTA) – Tax Abatement Program**

On August 1, 2016, Mount Joy Borough approved LERTA by Ordinance 4-16, as a means to stimulate new investment in properties in the Borough, and to stimulate owner reinvestment in those properties. Mount Joy Borough Council has determined that it is in the best interest of all residents and property owners that the Borough's Main Street corridor and other properties identified as part of the LERTA district be revitalized into a healthy economic area. Real Estate Tax Abatements are for new construction in deteriorated areas, and for improvements to certain industrial, commercial and other business properties to enable use of those properties for commercial, industrial and other business purposes. This applies to mixed-use residential and commercial real estate, residential proposing to change the use to an approved commercial use, commercial, or industrial use. There can be no tax delinquency with respect to the said property or other property owned in the Borough by the property owner.

LERTA applies a tax abatement to the value of the increase in property-tax-assessment due to property rehabilitation or new construction. The actual cost of the new construction or improvements to qualify for the exemption must equal or exceed \$25,000.00. The program provides a 10-year abatement that runs with the property for improved/developed properties. If the property would be sold, subsequent owners within the 10-year abatement period will still benefit from the abatement incentive. The program also provides a 5-year abatement for unimproved/undeveloped properties.

Any property owner with no tax delinquency on any property located within Mount Joy Borough who is undertaking a project within the Borough qualified as a construction, reconstruction or improvement(s) project, may apply for and receive from the Borough, School District, and County, an exemption from real property taxes due to the increased or additional assessed valuation attributable to the construction, reconstruction or improvement(s).

To see if your property is on the LERTA list, or to complete an application, please visit <http://mountjoyborough.com/local-economic-revitalization-tax-assistance-lerta-program/> or contact the Borough office at 717-653-2300.

# 7 Ways To Create New Traditions After Loss: Grief Support For Families

Provided by the Buch Family Funeral Homes

Family traditions and rituals are sacred events. Whether family reunions, religious gatherings, the holidays or family-famous treats, they are all important. You do them because they were created with love and meaning to bind your family together. After losing a loved one you may need to modify or skip those traditions completely. Either option is fine – the most important thing to do is acknowledge things are going to be different. Here are just a few suggestions on how to remain positive, keep those traditions alive or start new traditions:

- 1. Start with small rituals.** Upholding major family traditions can be difficult, especially after a recent loss. If that's the case, don't overlook the value of your family's small rituals. Sit down for coffee, see a movie, make a phone call with family members.
- 2. Accept that change is perfectly okay.** If you decide to make changes to your family traditions, keep in mind that it is okay. Change is a natural part of life - family traditions change all the time. Every tradition adapts to the changing dynamics in a family and your family adapts in response.
- 3. Think of change as an opportunity.** It can be easy to view change in a negative light, knowing that the tradition won't be the same without your loved one involved. Think of the changes as opportunities to remember your loved one and celebrate his life with the people who knew them best.
- 4. Keep in mind the meaning behind your traditions.** Traditions are done to help you create lasting memories with your loved ones. When you consider changes following the death of a loved one, keep that goal in mind.
- 5. Remember that traditions don't have to be perfect.** It is understandable that after your family suffers a loss of a loved one, you want everything to be perfect. But keep in mind that your family event won't feel perfect without your loved one – and that's okay.
- 6. Don't ignore the absence.** Sometimes, when a loss occurs it feels easier to pretend like nothing's changed. But that coping mechanism can easily turn into a problem. It is healthy to acknowledge the passing of a loved one. Bringing up memories of your loved one is part of the healing process.
- 7. Plan ahead and be prepared.** As tough as it may be, it is important that you sit down and have a conversation with the family about how traditions may change after a loved one's passing. By planning for the changes, you can help create realistic expectations which can have a positive impact on the rest of the family.

## Regulations from DEP Regarding Water Main Breaks

There is very specific protocol required by DEP (Department of Environmental Protection) when a water main break occurs. Depending on how and what type of break happens, precautionary boil notices will be put out. When you see the boil notice, there isn't necessarily a problem; we are just following DEP protocol. Please feel free to contact the Mount Joy Borough Authority at 653-5938 if you see a boil notice and have any questions.

Mount Joy Borough Authority has contracted with SWIFT Reach Network to have an immediate response mechanism to alert you of any important news relative to your water/sewer service. Currently we have basic information for most property owners. You are able to access this file to add/change items, such as cell phone or other electronic devices such as e-mail. Please visit [mountjoyborough.com](http://mountjoyborough.com) and click on the link to the left that says "Police", then follow to the link that says "Swift 911 Emergency" to submit your information electronically. This system will also be available for use by the Borough and Police Department to alert you of emergencies.

## Work Orders

Meters are read four times per year, typically in February, May, August and November. Each quarter when this is completed there are always a few meters that did not read for various reasons. When this happens this will require a work order be generated for each of those particular properties. Once a work order is created, one of the Mount Joy Borough Authority employees will come out to look at the problem and fix it. Each employee will always have proper identification on them so you can verify that they are in fact an employee of Mount Joy Borough Authority. If you ever have any questions about this please do not hesitate to call the office at 653-5938.

# Things You Can Do To Prevent Water Waste

- Check your toilets for leaks. (Put food coloring in your toilet tank. If, without flushing, the color begins to appear in the bowl, you have a leak that should be repaired.)

- Replace older toilets with efficient water saving toilets.
- Check all faucets, pipes, hoses and couplings for leaks inside and outside of your home. (Leaks outside the house may not seem as bad because they're not as visible. They can be just as wasteful as leaks inside.)
- Rinse your razor in the sink.
- Turn off the water after you wet your toothbrush.
- Use your automatic dishwasher and washing machine only for full loads.
- If you wash dishes by hand, don't leave the water running for rinsing.
- Don't let the faucet run while cleaning vegetables.
- Keep a bottle of drinking water in the refrigerator.
- Water your lawn only when it needs it.
- Deep-soak your lawn. Water during the cool parts of the day. (Early morning is better than dusk because it helps prevent growth of fungus.)
- Plant drought-resistant trees and plants.
- Put a layer of mulch around trees and plants. (Mulch slows evaporation of moisture and discourages weed growth.)
- Don't water the gutter.
- Use a broom, not a hose, to clean driveways and sidewalks.
- Don't run the hose while washing your car.
- Tell your children not to play with the hose and sprinklers.
- Take shorter showers.
- Install water-saving showerheads or flow restrictors.
- Take baths.

## Guidelines for Parents-Children Watching Younger Children:

1. In Pennsylvania, a law does not designate the exact age at which a child can stay home alone or watch other children.
2. Parents need to use a "reasonableness test."
  - A. Can your child, regardless of his or her age, act reasonably under the circumstances?
  - B. Detectives advise parents to consider the following:
    - i. Is your child mature enough to know what to do in an emergency?
    - ii. If there is a fire, is your child mature enough to get out of the house?
    - iii. Is he or she mature enough to get other children out of the house?

## Safety Tips for Children Home Alone:

1. Always check with your parents before you go anywhere or do anything. Be sure to check-in regularly with your parents when you're not with them.
2. Always take a friend with you when playing or going anywhere. It's safer and more fun.
3. Don't be tricked by people who offer you special treats or gifts. Never accept anything from anyone without your parent's permission.
4. Stay safer when you're home alone:
  - Keep the door locked.
  - Do not open the door for or talk to anyone who stops by unless the person is a trusted family friend or relative, and the visit has been pre-approved by your parents or guardians.
  - Never telling anyone who calls that you're home by yourself.
  - Before you are home alone, talk to you parents about a neighbor or trusted adult you can call if you feel scared, uncomfortable, or there's an emergency
5. Never go into a public restroom by yourself.
6. Never go alone to malls, movies, video arcades, or parks. Take a friend with you, and always check first with your parents to make sure it's okay.
7. Don't panic if you feel lost. Identify the safest place to go or person to ask for help in reuniting you with your parents or guardians. Safe helpers could be a uniformed law-enforcement or security officer, store salesperson with a name tag, person with a name tag who is working at the information booth. Never search for your parents or guardians on your own, and never go with anyone who is trying to reunite you with them.
8. Be careful when you play.
  - Never take shortcuts unless you have your parents or guardians permission.
  - Don't play near busy streets or deserted areas.
9. Don't wear clothes or carry items with your name on the outside
  - Don't be confused just because a person you don't know calls out your name.
10. Don't get into a vehicle or go near a vehicle with anyone in it unless you are with your parents or a trusted adult.
  - Never take a ride from anyone without checking first with your parents or guardians.
11. Don't be afraid to say NO and GET AWAY from any situation making you feel scared, uncomfortable, or confused. TRUST YOUR FEELINGS, and be sure to TELL a trusted adult if anything happens to make you feel this way.

## **Mount Joy Borough Rail Enhancement Project Phase II - UPDATE**

The construction activity for the Mount Joy Rail Enhancement Project Phase II (Amtrak Station) is expected to begin in earnest by Mid-March 2017. Some of the activity that has occurred recently involved a new paving surface for the former Church of God parking lot, that was badly needed due to poor and uneven condition of asphalt of the prior surface. The paving of the parking lot occurred between February 22 and 23, 2017. The General Contractor, Wagman Construction Inc., (Wagman) has moved in trailers that will be serving as field offices for the duration of the construction period of the new Amtrak Train Station. The Project Manager, Gannett Fleming Engineering is currently in the process of finalizing a communication plan, which will be a guide in keeping everyone informed of the construction process. The Borough's communication efforts will involve posting information to the Borough website. Gannett Fleming Engineering will be announcing shortly the details of a public meeting that will be held in order to provide information to Borough residents and Amtrak customers.

The Borough asks residents and other interested parties/individuals to expect some inconveniences during the construction of the new Amtrak Station. Please refer to the Borough's website for current up to date information. The Borough asks for your patience during the construction process. If you have any questions or concerns, please contact me.

## Onsite medical care improves health outcomes at Juniper Village

Resident Ed Riefenstahl is examined by nurse practitioner Connie Smith onsite at Juniper Village.

Juniper Village at Mount Joy is now providing onsite medical care to its residents through Redwood Health Partners. By providing onsite patient-centered care, residents will experience a dramatic improvement in their healthcare delivery method. No more waiting for appointments, making transportation arrangements, or lack of communication among the healthcare providers. Residents can see a primary care practitioner for routine visits or urgent needs.

The Redwood practitioners will assess each patient, participate in the care planning process, and use the Juniper Village electronic health record system. By Redwood having access to resident's EHR, they can not only enter notes, but can also see notes from staff and other ancillary providers to provide consistent, cohesive care.

The Redwood team is comprised of credentialed physicians and nurse practitioners who have been trained to ensure they understand the special needs of those with chronic conditions, and can use various electronic health records and coordinate care with many different providers.

"Integrated primary care, provided on-site, benefits our residents and their families in many ways – ease of communication, convenience, coordination of care, and much more. It allows residents to feel more in control of their care and more involved in care decisions," stated Lynne Katzmann, founder and CEO of Juniper Communities. A soon to be released research study on the benefits of onsite care shows that it dramatically improves residents' health and outcomes.

## Juniper Village at Mount Joy Wins 2017 Best of Senior Living Award for the Third Year

Juniper Village at Mount Joy is proud to announce that it has been selected as one of the 2017 Best of Senior Living Award Winners on SeniorAdvisor.com, the largest ratings and reviews site for senior care and services in North America. This is the third year the award has been presented to Juniper Village, a personal care community.

The annual SeniorAdvisor.com Best of Awards tabulates over 130,000 family created reviews to find the best quality care providers for this honor. Of the nearly 200,000 communities currently listed on SeniorAdvisor.com, just over 1,400 were recognized with this prestigious award.

Juniper's Executive Director Debra Miller says Juniper Village at Mount Joy regularly receives highly positive reviews like this one posted on SeniorAdvisor.com by Pam Coon. "We are beyond thrilled with my mom's care at Juniper Village at Mount Joy. The staff is wonderful and cheerful, which helps all of us when these decisions for more care are being made. Mom is happy and loves the staff. We as a family highly recommend Juniper for your loved one's care, it is a paradise."

"Families are increasingly looking to online reviews to find out who truly delivers great care for our seniors, not just who claims to deliver great care," said Eric Seifert, President of SeniorAdvisor.com. "Our SeniorAdvisor.com Awards program is all about celebrating the exceptional people who do just that. We're honored to spread the word about these organizations whom families can entrust with the care of their senior loved ones."

To qualify for inclusion in the Best of 2017 Awards, providers must have maintained an average overall rating of at least 4.5 stars while receiving three or more new reviews in 2016. Additional details and a complete list of award winners can be found on SeniorAdvisor.com. Juniper Village at Mount Joy is located at 607 Hearthstone Lane, Mount Joy, PA. For more information call (717) 492-9692 or visit [www.junipercommunities.com](http://www.junipercommunities.com).
