

If you need to gather leaves prior to the start of Leaf Collection:

- Take them to the Compost Site (with a Key Fob).
- Put the leaves in kraft bags (available for purchase at the Borough Office or the Library) and set them out with your trash on your normal trash collection day, the first and third week of each month through November.

Reminder: Grass clippings are not accepted at the Compost Site, so do not put grass clippings in the kraft bags or on the street with your leaves for collection.
